

Premium Skin Rejuvenation IV Therapy: Elixir of Radiance

Price R800

What is Skin Rejuvenation IV Therapy?

Rejuvenation IV drips for skin are an innovative treatment that delivers essential nutrients, vitamins, and minerals directly into your bloodstream through intravenous infusion. This method ensures maximum absorption and bioavailability, leading to optimal results for your skin's health and appearance.

The Essence of Our Formula:

Our Elixir of Radiance is infused with a potent mix of vitamins, minerals, and antioxidants known for their skin-enhancing properties: Saline, Glutathione, Vitamin C, Vitamin B complex, vitamin B12 & Magnesium Sulphate

Benefits of The Elixir of Radiance offers:

- Enhanced skin hydration and elasticity
- Reduction in the appearance of fine lines and wrinkles
- Improved skin tone and texture
- Detoxification and protection from environmental stressors
- Boosted collagen production for firm, plump skin.
